

Math Expressions: Teachers Guide, Grade 3, Volume 2

2-8  Name _____ Date _____

Class Activity

► **Numerical Multiplication Methods**

You have used the area model to help you multiply. In this lesson, you will compare the numerical multiplication methods that are related to this area model.

Place Value Sections Method

$37 = \begin{array}{|c|c|} \hline 30 & 7 \\ \hline \end{array}$
 $4 \times 30 = 120$
 $4 \times 7 = 28$
 $\begin{array}{r} 120 \\ + 28 \\ \hline 148 \end{array}$

Expanded Notation Method

$37 = \begin{array}{|c|c|} \hline 30 & 7 \\ \hline \end{array}$
 $4 \times 37 = \begin{array}{r} 4 \times (30 + 7) \\ = 4 \times 30 + 4 \times 7 \\ = 120 + 28 \\ = 148 \end{array}$

Algebraic Notation Method

$37 = \begin{array}{|c|c|} \hline 30 & 7 \\ \hline \end{array}$
 $4 \times 37 = 4 \times (30 + 7) = 120 + 28 = 148$

© Houghton Mifflin Harcourt Publishing Company

► **Connect the Multiplication Methods**

Refer to the examples above.

1. What two values are added together to give the answer in all three methods?

2. What is different about the three methods?

UNIT 2 LESSON 8 Compare Methods of One-Digit by Two-Digit Multiplication 57
